Warnings: Do not exceed the expressly recommended daily dose. Food supplements should not be used as substitutes for a varied and balanced diet and a healthy way of life. Keep out of reach of younger children.

Properties and potential applications:

Vitamin C contributes to normal collagen formation for the normal function of blood vessels.

Horse chestnut (*Aesculus hippocastanum*) helps maintain healthy blood circulation, promotes circulatory health and helps maintain healthy venous circulation in the legs.

Ruscus aculeatus helps reduce swelling, revitalises, refreshes and brings relief and a feeling of lightness to the legs. It supports venous circulation, decreases the feeling of tired and heavy legs and contributes to circulation in the legs.

Centella asiatica helps maintain venous circulation, supports peripheral circulation and reduces the feeling of tired legs.

Pine bark extract (Pycnogenol®) improves microcirculation by increasing capillary permeability, protects blood vessel walls and supports good blood circulation.

It is important to follow a varied and balanced diet and a healthy lifestyle.
