Warnings: Do not exceed the expressly recommended daily dose. Food supplements should not be used as a substitute for a balanced diet. Keep out of the reach of young children. Do not use for more than 6 weeks without medical advice. Consult your doctor before consuming this product if you suffer from hypothyroidism or are undergoing thyroid treatment.

Properties and possible applications:

Picrorhiza kurroa helps maintain healthy liver function, supporting digestion and purification of the body. It also supports the immune system and the body's defences.

Vitamin C contributes to normal energy metabolism, protects cells from oxidative damage, improves iron absorption and contributes to the normal functioning of the immune system.

It is important to follow a varied and balanced diet and a healthy lifestyle.
